

Deep Dive Dubai

The Deepest Pool In The World

The 60-meter pool is the deepest in the world giving everyone the chance to discover the depth of their potential, as they also discover an underwater world filled with adventure and wonder.

Deep Dive Dubai, the city's newest addition to the city's growing sport and adventure activities sector, is the place to be for all aqua enthusiasts. The recreational center's 60.02m-deep pool, which will open in July 2021, has been recognised by Guinness World Record as the world's deepest swimming pool for diving.

Aside from its incredible depth, the pool has additional unrivalled underwater elements, such as 'the sunken city,' an abandoned urban cityscape in which divers may explore this modern Atlantis-like immersive zone and reveal the complex details of the city.

The building's architecture from the outside, shaped like an oyster, pays tribute to Dubai's pearl diving tradition as well as the daring of Emirati pioneers. Deep Diving Dubai is also a vibrant venue for events, with onsite dive and gift boutiques, a restaurant, and conference areas that can accommodate up to 100 guests.

Year-round freediving and scuba diving lessons, as well as guided experiences, are offered by the centre, which is staffed by a team of well recognized international diving professionals. Offerings are divided into three categories to better accommodate to those aged 10 and above of varying skill levels, from beginners to masters.
