White Island

Located in the very south of the Sinai Peninsula, 25 km southwest of Sharm El Sheikh. It is considered one of the most picturesque places in the entire Red Sea, and its southernmost part is one of the ten best beaches in the world for scuba diving. This place is often called the Egyptian Maldives because of the soft white sand and the purest turquoise warm sea. A truly heavenly place that produces an unforgettable and bewitching experience.

Blue Hole

The Blue Hole is a deep, natural sinkhole in the Gulf of Aqaba, just north of the South Sinai tourist town of Dahab. It is one of the most significant natural landmarks in Egypt.

Geologists believe that this submarine sinkhole formed thousands of years ago during the melting of the last ice age. It has a maximum depth of around 120 meters (390 feet) and is lined by a near-vertical reef wall.

This wide hole is a great scuba diving and snorkeling site. This is due to the beautiful coral reef in the shallow lagoon surrounding its edge. The wall is also abundant with hard coral formations and a healthy ecosystem of marine life.
